## AMENDMENT TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application:

## **LISTING OF CLAIMS**

Claim 1 (currently amended): A hand tool, comprising:

a head portion having two jaw portions pivotally connected with each other by a pivot pin;

a handle portion pivotally mounted on the head portion and having two holding grips each having a first end pivotally mounted on an end of a respective one of the two jaw portions of the head portion by a positioning pin and a second end formed with a counterbore;

a mounting tube <u>fixedly</u> mounted on the second end of a first one of the two holding grips of the handle portion;

a push rod <u>fixedly</u> mounted on the second end of a second one of the two holding grips of the handle portion and slidably mounted in the mounting tube; and

an elastic member mounted in the mounting tube and urged between the mounting tube and the push rod.

Claim 2 (original): The hand tool in accordance with claim 1, wherein the mounting tube is substantially arc-shaped.

Claim 3 (original): The hand tool in accordance with claim 1, wherein the push rod is substantially arc-shaped.

Claim 4 (currently amended): The hand tool in accordance with claim 1, wherein the mounting tube has an <u>outward protruding stepwise</u> end inserted into <u>and closely fitted in</u> the counterbore of the first one of the two holding grips of the handle portion.

Claim 5 (currently amended): The hand tool in accordance with claim 1, wherein the push rod has an <u>outward protruding stepwise</u> end inserted into <u>and closely fitted in</u> the counterbore of the second one of the two holding grips of the handle portion.

Claim 6 (currently amended): The hand tool in accordance with claim 1, wherein the two holding grips of the handle portion are moved <u>and pivoted relative to the head portion</u> synchronously.
